TRES and PLANTS

W. T. Hood & Company

The Old Dominion Nurseries
3025 Chamberlayne Ave.

Richmond, Virginia

Price List 1923

We take pleasure in presenting herewith our revised price list for the season of 1923. We have, as you will note, materially improved list in that we have arranged the various fruits in order of ripening as well as describing in a concise manner their qualities. This we feel will very much aid the purchaser in selecting his trees. We, of course, continue to issue a large illustrated catalog which will be sent on request.

Shipping—We begin shipping the stock about November 1st and continue until about April.

Guarantee of Genuineness—We use constant care in keeping everything true to name and description.

Mistakes are avoided every possible way, but when they do occur, and when we are promptly notified of such mistakes on receipt of shipment we gladly correct them, and if any stock proves not true to name we will replace it with the genuine or return the price paid for same, but it is mutually agreed between ourselves and our purchasers that we are not to be held liable to pay any more than the original price received for the goods.

Location—Our office and packing grounds are at Stop 27, Ginter Park Car Line.

Our Prices are based upon cost of production and upon a reasonable profit, and are not in competition with cheap stuff grown in a cheap way.

Terms-Cash.

Money should be sent by Postal or Express Money Orders, Check or Registered Letter.

DISTANCE FOR PLANTING

Often trees are planted too close, thereby retarding their growth and development. The following we consider advisable:

aу.

	Feet apart each wa
Standard Apples	054.65
Ponchon	25 to 35
Peaches	· · · · · · · · · · · · · · 15 to 20

60	feet	apart	each	way.	 													12	

If it is desired to plant a certain number of feet apart in the rows, and have the rows a different number of feet apart, then multiply the distance in feet between the rows by the distance apart the plants are in the rows, the product of which divided into 43,560 will give the number of trees, etc., required per acre.

Apples

Growing the Apple is a profitable commercial proposition, holding out to planters the possibility of an income from this source about four times as great as could be derived from a similar acreage devoted to ordinary farm crops.

The home garden that has the necessary space available is not complete without one or more Apple trees. The healthfulness of this fruit is proverbial, and surely it is more pleasurable to buy an Apple tree than it is to pay a doctor's bill.

The varieties we offer have been selected for their sterling worth, productiveness, flavor, time of ripening, and for other special reasons mentioned in the various descriptions.

Prices for Apple

				Each	\mathbf{Dozen}	$25 \mathrm{\ Trees}$	100 Trees
				\$1.25	\$15.00	\$27.50	\$75.00
3	to	4	ft.	1.00	12.00	20.00	60.00

JONKHEER J. L. MOCK.

Roses

Roses are the most beautiful of flowers, and they are among the easiest to raise in perfection. They require plenty of manure and good cultivation. Old and decayed branches, and at least half the previous season's growth, should be cut away early each spring, and a little culting back after the first blooming will insure more late flowers.

\$1.00 each; \$10.00 dozen.

Everblooming Pink Roses

Bridesmaid—It is a charming, clear bright pink in color, and much superior to its well-known parent.

Bon Silene (Hardy, 1839)—Color bright rose, delicately tinted with fawn, sometimes quite light. Deliciously scented.

Catherine Mermet (Guillot, 1869)—Light rosy-flesh color; large, full and globular; a charming sort.

Columbia—A large rose with long stiff stem peach blow pink; deepening as it opens.

Helen Gould (Balduin) (H. T.)—Rosy pink; long, pointed buds. Fine.

Jonkheer J. L. Mock (Leenders, 1910)—The blooms are of largest size, highly perfumed. Color clear imperial-pink. Awarded two gold medals.

Killarney (Alex. Dickson, 1898)—The finest pink forcing Rose ever introduced. In coloring it is especially beautiful.

Madame Caroline Testout (Pernet Ducher, 1890)—Clear bright satiny-pink; flowers very large and extremely showy.

Radiance (Cook, 1909)—A brilliant rosy-carmine, displaying beautiful rich and opaline-pink tints in the open flower.

Maman Cochet (Cochet, 1893)—This is the famous Pink Cochet. Light pink shaded with salmon-yellow, outer petals splashed with bright rose; extremely large and full.

William R. Smith (Shellum, 1908)—The soft blending of the salmon-pinks and the rose-pinks and the beautiful flesh tints in this Rose give it a singular resemblance to the entrancing flush on a maiden's cheek.

GRUSS AN TEPLITZ

Everblooming Red Roses

Etoile De France (Pernet Ducher, 1905)—Color a lovely shade of clear, red-crimson velvet; very fragrant.

Gruss An Teplitz (Geschwindt, 1898)—Bright crimson, white, flery-red center; cup-shaped; semi-double; flowers in clusters; so free in bloom as to present a blaze of scarlet.

Hadley (H. T.)—Deep, rich, velvety crimson. Well formed buds on long stiff stems. Very fragrant.

Hoosier Beauty (H. T.)—Crimson scarlet with darker shadings. Buds of good length with stiff stems. A strong grower.

Laurent Carle (Pernet Ducher, 1907)—Color brilliant velvety carmine. A very promising variety; another Rose it will certainly pay you to try. We know it has a future.

Meteor (Geschwindt, 1887)—Dark velvety crimson, shaded maroon. A grand garden Rose.

Radiance (H. T.)—Rosy carmine reverse of petals, beautiful silver tint, large, full, fragrant. Vigorous grower, free bloomer, long, stiff stems. This is one of the best we have seen in the South.

Maman Cochet (Red)—It is claimed to be the largest flowering and freest blooming Hybrid Tea Rose in existence, and the most beautiful and satisfactory rose for general planting ever offered. Color is a rich, vinous crimson.

Rhea Reid—Rich, dark velvety red double flowers, of large size. A very desirable garden sort.

Richmond (Hill, 1905)—Pure rich scarlet; very free and continuous flowering; splendid forcer.

Everblooming White Roses

Antoine Rivoire (Pernet Ducher, 1896)—Called by the trade Mrs. Taft. Rosy-flesh on yellow ground. Forces.

Devoniensis (T.)—An old favorite. Creamy white, flesh center; very fragrant. A good bloomer.

White Maman Cochet (Cook, 1897)—A sport from Maman Cochet, with creamy-white flowers faintly tinged with blush.

Kaiserin Augusta Victoria (Lambert & Reiter, 1891)—Pure white, with shadings of primrose-yellow.

Yellow Roses

Etoile De Lyon—Bright sulphur-yellow; buds very large and full; constant bloomer.

Harrison's Yellow (Harrisoni)—A slender but vigorous grower, with distinct golden yellow flowers.

Lady Hillingdon (Lowe & Shawyer, 1910)—Pointed bud of brilliant deep golden-yellow. Awarded gold medal, N. R. S.

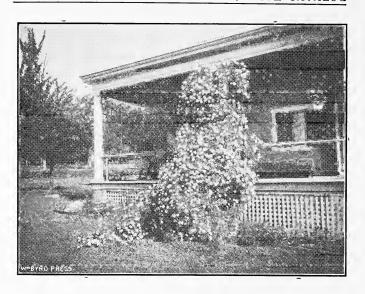

Sunburst (T.)—This beautiful Rose has been thoroughly tested, and it easily stands at the head of all sorts of its color. The color is a most pleasing shade of yellow and orange; buds long and pointed; plant vigorous and healthy; blooms keep for a long time after being cut. A grand Rose.

Safrano—Saffron and apricot; one of the oldest and best Roses; in the bud shape it can hardly be surpassed.

Yellow Cochet, or Madame Derepas Matrat—A pure Tea Rose, very free-growing and hardy in character, withstanding ten degrees below zero. It throws up fine, strong stems, crowned by solitary buds of grand size; the color is a good sulphur-yellow, blooms very large, perfectly double, splendid form and freely produced. It has every quality necessary to make the ideal yellow bedder, ranking with the White and Pink Cochets in value as a Summer Rose.

Rosa Hugonis

Rosa Hugonis (A Bare New Rose)—Known to be in bloom during a snowstorm! The color is intense canary-yellow, very bright and attractive. When in bloom the entire plant is covered with bright, sunshiny yellow blooms and buds making a wonderful early spring show. It later forms rich, scarlet berries which remain until winter and are very noticeable. Very rare. \$2.50.

Climbing Everblooming Roses

Captain Christy (H. P.)—Beautiful peachblow-pink, rich center, large and full.

Cl. Caroline Testout (Cl. T.)—Vigorous climber, producing abundance of large cup-shaped blooms of most beautiful delicate pink color. No collection is complete without this splendid variety.

Climbing Helen Gould (Good & Reese, 1912)—(C. H. T.)—Probably no red Rose has held its place secure in the hearts of Rose lovers for so long a period as has the beautiful Helen Gould. We have now the pleasure of introducing this famous Rose in climbing form. Everybody is familiar with the warm watermelon-red color of its charming flowers. This is a grand climber. Be sure and try it.

Climbing Killarney (Geo. Reinberg, 1908)—(C. H. T.)—An exact counterpart of Killarney in every respect except that it is of vigorous climbing habit; deep shell-pink.

Climbing Papa Gontier (Cherrier, 1904)—(C. T.)—A climbing sport of Papa Gontier. Color rich red; a beauty.

Etoile de France (C. T. H.)—One of the very best dark velvety crimson Climbing Roses; very hardy climber.

Climbing Meteor—Grows 10 to 15 feet in a season; blooms freely and persistently; deep, rich, velvety crimson; hardy with protection.

Clothilde Soupert (Soupert & Notting, 1890)—(H. Poly.)—Known the world over as one of the very best of all bedding Roses. The only rival of 'Hermosa' as a bedder and market pot plant. The color effect is beautiful ivory-white, shading towards the center to bright silvery-pink. Everybody's Rose.

Climbing Kaiserin Augusta Victoria (Dingee, 1896)—(C. H. T.) A strong climbing form of the variety of the same name. Pure white.

Devoniensis (T.)—An old favorite. Creamy white, flesh center; very fragrant. A good bloomer.

Marechal Niel (Pradel, 1864)—(C. T.)—This is the old standby yellow Rose in the South, where it is hardy; indeed, it will bloom in any garden, but is not hardy in the North. Immense deep golden-yellow flowers with the deepest, richest tea fargrance of all Roses.

Climbing American Beauty—Rosy crimson, similar to its parent, the famous American Beauty; flower 3 to 4 inches in diameter and fragrant; finely formed, on long stems. Blooms very freely in May and June, and occasionally during the summer. The plant is a strong grower, making shoots 10 to 12 feet in a season, and perfectly hardy. Foliage of good size, deep glossy green color; does not mildew; is not subject to black spot, and remains on until frost.

Hybrid Roses

Alfred Colomb—Brilliant carmine-crimson; very large, full, and of fine globular form; extremely fargrant, and in every respect a superb sort; green wood, with occasional pale greenish thorns; foliage large and handsome. One of the most useful of all sorts for general cultivation. Budded and on own roots.

General Jacqueminot—Brilliant, velvety crimson; large, showy, and a fine grower; a magnificent variety.

Madame Charles Wood (E. Verdier, 1861)—Bright cherry-red; extremely free bloomer. A grand garden Rose. This is the same Rose as Dinsmore.

Prince Camille de Rohan—Deep velvety crimson; large; moderately full: a splendid rose.

same Rose as Dinsmore.

Prince Camille de Rohan—Deep velvety crimson; large; moderately full; a splendid rose.

Ulrich Erunner (Levet, 1881)—Cherry-red, of immense size, fine form and most effective in the garden.

Magna Charta (W. Paul, 1876)—Bright rose, very large and double, of good form and fragrant; extra.

Paul Neyron—Deep rose-color; splendid foliage and habit, with larger flowers than any other variety; a valuable acquisition.

White American Beauty, or Frau Karl Druschki—This magnificent variety has taken first prize at all the great flower shows of Europe. Pure snow-white, with long buds and immense, perfectly double flowers, 4 to 5 inches across, with waxy-like petals and very durable. It is one of the most continuous flowering roses in this excellent class. The bush is a vigorous grower, of upright habit and luxuriant foliage. Hardy everywhere that roses grow. madame Plantier (Plantier, 1835)—Extremely hardy; completely hides itself in June with its lovely pure white, sweet scented flowers; fine.

Ramblers

The Biue Rambler Rose (Schmidt, 1909) C. P.)—This is much better Rose than some give it credit for. It opens reddish-violet, quickly changing to violet-blue.

Baltimore Belle-Pale blush, variegated carmine.

white; double

Crimson Rambler—Especially adapted for covering trellises, training to side of the house, or can be cut back and grown in bush form.

In bush form, **Dorothy Perkins**—The greatest climbing rose ever introduced. The flowers are borne in the greatest profusion in large trusses, and are of a most exquisite shade of shell-pink with beautifully quilled petals. The foliage is strong and bright green, and the plant, even when not in bloom, is a handsome adornment to porch.

White Dorothy Perkins-Double white flowers in large clusters.

Foliage deep glossy green.

Lady Gay—Flowers cherry-pink, fading to white; vigorous grower; hardy.

Philadelphia Rambler—An improvement on Crimson Rambler. The flowers are larger, more double and of a darker crimson color. Silver Moon—Pure silvery white; large blooms; vigorous growth. 1 and 2 years.

Red Dorothy Perkins—This is identical with Pink and White Dorothy Perkins in growth and blooming qualities. The color is a brilliant crimson, making it one of the most showy Roses grown. grown

Baby Ramblers

Baby Pink Rambler—Same as White Rambler, except color of flowers, which are brilliant light carmine.

Red Baby Rambler—This is the original Baby Rambler Rose. A compact dwarf variety covered with a wealth of crimson flowers during the entire season. Very showy and useful for massing.

White Baby Rambler (Lambert, 1901)—Grows to a height of venty inches and produces double pure white flowers in twenty abundance.

Orleans (Levavasseur, 1910)—Showiest and prettiest of all Baby Ramblers. This charming and dainty Rose is of beautiful rounded habit and is a huge bouquet of deep cerise or Geraniumpink with distinct showy center of pure white; florets not crowded, but of beautiful arrangement, and cannot be beaten. The color is irrsistible.
